THE COLOUR SYSTEM

Fourteen colours. Harness, collar and lead.

The same fourteen across the whole range, kept in stock season after season. A customer who bought a collar in Emerald two years ago can still match it. That is what turns one sale into three.

Warranty claims come to us, not you. No admin lands on your counter.

No minimum resale price. Sell at whatever price you choose.

Where the money went.

Gold cobra buckle

Gold-plated zinc alloy. Opens under load, never creeps loose, and does not tarnish in sea water. Most brands fit a plastic side-release clip.

Stitched, not printed

A sewn PVC logo and a welded D-ring, on double webbing with a structural layer between.

Rated past 400kg

Hardware load-tested well beyond anything a lead will put through it.

Eleven lines.

Shown in black. Every line except the vegan leather range and the rope lead comes in all fourteen colours.
